

**A
PROJECT REPORT**

ON

“Railway Reservation Management System”

FOR

Arts, Commerce & Science College, Sonai

SUBMITTED TO SAVITRIBAI PHULE PUNE UNIVERSITY, PUNE

BY

Miss. Vairagar Sonali Sanjay

Under the Guidance of

Shri. Gaikwad B.A

Shri. Bahirat M.R

IN PARTIAL FULLFILLMENT OF BACHELOR OF COMPUTER APPLICATIONS

FOR THE ACADEMIC YEAR

2020-2021

Mula Education Society's
ARTS, COMMERCE & SCIENCE COLLEGE SONAI

Tal. Newasa, Dist. Ahmednagar - 414105. Ph./Fax : (02427) 231384

E-mail : sonacollege@yahoo.co.in

Website - www.acssonaicollege.com

Affiliated to Savitribai Phule Pune University (I.D.PU/AN/ASC/031/1989)
NAAC REACCREDITED 'A' GRADE and ISO 9001 : 2008 CERTIFIED

Date:

CERTIFICATE

This is to certify that **Miss.Vairagar Sonali Sanjay** rebonafide students of **Arts, Commerce and Science College, Sonai** have successfully completed the Mini project work as prescribed by the Savitribai Phule Pune University, Pune in the partial fulfillment of the requirement of Third Year, Bachelor of Business Administration (Computer Application). Program for the academic year **2020-2021**.

The Project Work titled as “Railway Reservation Management System”

Shri. Gaikwad B.A
Project Guide

Dr.Darandale .S.R
H.O.D.

External Examiner

Internal Examiner

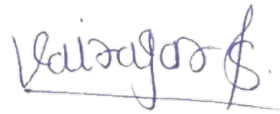

ACKNOWLEDGEMENT

At every outset we express my gratitude to almighty lord for showering his grace and blessings upon me to complete this project.

Although our name appears on the cover of this book, many people had contributed in some form or the other form to this project Development. We could not do this project without the assistance or support of each of the following we thank you all.

We wish to place on my record my deep sense of gratitude to my project guide, for his constant motivation and valuable help through the project work. Express my gratitude to **Dr. Laware S.L.(Principal)** and **Dr. Darandale S.R. (H.O.D.)** of **Arts, Commerce & Science College, Sonai** for her valuable suggestions and advices throughout the **B.B.A(CA)** course. We also extend my thanks to other faculties for their Cooperation during my Course.

Finally, we would like to thank my friends for their co-operation to complete this project.

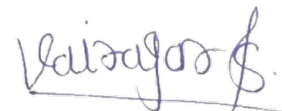

Miss. Vairagar Sonali Sanjay

DECLARATION

We hereby declare that the project work entitled, “**Railway Reservation Management System**” submitted under the guidance of **Shri. Gaikwad B.A.** is our original work completed under the four walls of our institute.

The Report submitted is our own work and has not been duplicated from any other source. We shall be responsible for any unpleasure moment/situation.

Miss. Vairagar Sonali Sanjay

INDEX

1. INTRODUCTION

- Introduction to System
- Proposed System
- Scope of proposed System

2. SYSTEM ANALYSIS

- Fact Finding Techniques
- Feasibility Study
- Hardware & Software Requirement

3. SYSTEM DESIGN

- Data Flow Diagram
- UML Diagram
- Use Case Diagram
- File Design
- Data Dictionary

4. FORM DESIGN (With Input Values)

5. Advantages and Limitations

6. Future Enhancement

7. Bibliography

INTRODUCTION

Railway Management System is help to owner for storing all kinds of Reservation related information in project. Railway Reservation Management System is including module customer, registration and Bill. A project Railway Reservation Management System, which is developed to help the technical experts of database purpose. In this project owner can store various details of information. Owner easily generate the report of stocks.

It can also store information about Passenger likes Id, Name , Mobile No, etc. Using this, user can stay record about their customer. In it they can store their daily report of daily transaction.

.

Thus Java was chosen as background to design this application.

In this world of growing technologies everything has been computerized. With large number of work opportunities the Human workforce has increased. Thus, there is a need of a system which can handle the data of such a large number of passenger in city. This project simplifies the task of maintain records because of its user friendly nature.

EXITING SYSTEM

The work that was being carried out with the help of manual system had to be transferred to the computer & internet for variety of reasons.

- 1) The manual system is slowly being passed out and all the activities that are being carried out by manual system are to taken into care of by the computer system.
- 2) There were many systems that demanded computerization but were not being covered by the manual system.
- 3) Actual time required for solution of particular task takes lot of time but computer system it is very fast and easy by using query facility.
- 4) In manual system reports, storage, calculation and other documentations takes more time that causes delay in processing, so by computerization of the system this delay processing problem is solved.
- 5) In the existing system the user cannot get fast service, but by computerization it is done much faster.

SCOPE OF SYSTEM

- This system provides security.
- It also helps to maintain Customer records.
- It helps to update registration details quickly & easily.
- It helps to maintain database accurately.
- Since proposed system is computerized, so fast calculation is done.
- It is time saving since it maintains record accurately.
- It does manual task of existing system automatically in effective and efficient manner.
- It provides user friendly GUI.

Through this Railway Reservation system it is possible to print various reports require for the organization.

Scope of the system is as following: -

- 1) Maintain ace of master file.
- 2) Data entry for various transactions.
- 3) Printing of various reports.

For all of this clear information and understanding should have done regarding system. The proper documentation should be necessary

. proper normalization and creating database files should have done properly also various designing should have done.

Finally, the system should have tested properly be tally reports that can be giving much experience in system development.

SYSTEM ANALYSIS

❖FACT FINDING TECHNIQUES

1. Interview:-

During the system study, information of customer of the system have to be taken. We have to show them the data of the system.

2. Observation:-

The basic information about various activities that are carried out can be studied through observation. This method was used to how the documents are handled and to understand the actual manual process.

3. Record Review:-

Documents study is also helped in determining the Input and output of the system. In this type of technique, as we have to study the existing/previous records and reports that helps us in generating an overview for out new system which is to be designed.

❖ FEASIBILITY STUDY

An important outcome of preliminary investigation is determination that the system requested is feasible. There are three aspects of feasibility study as follows.

1. Technical Feasibility Study: -

The main aspects of technical feasibility study in Railway Reservation Management System that it is secured by password that will not allow the unknown person to access the system.

2. Economical Feasibility Study: -

The proposed system is economically feasible because the cost of hardware and software installation and maintenance is affordable.

3. Operational Feasibility Study: -

The proposed system being user friendly, it can accept by anybody who has the basic knowledge of computer. This computerized system is very easy to understand.

❖ Hardware and Software Requirement

- Software Requirements:
- “The utility programs which are required to drive the Hardware of the computer are called software.”

Operating System : Windows7/10

Technology: Java

Front-End: Java

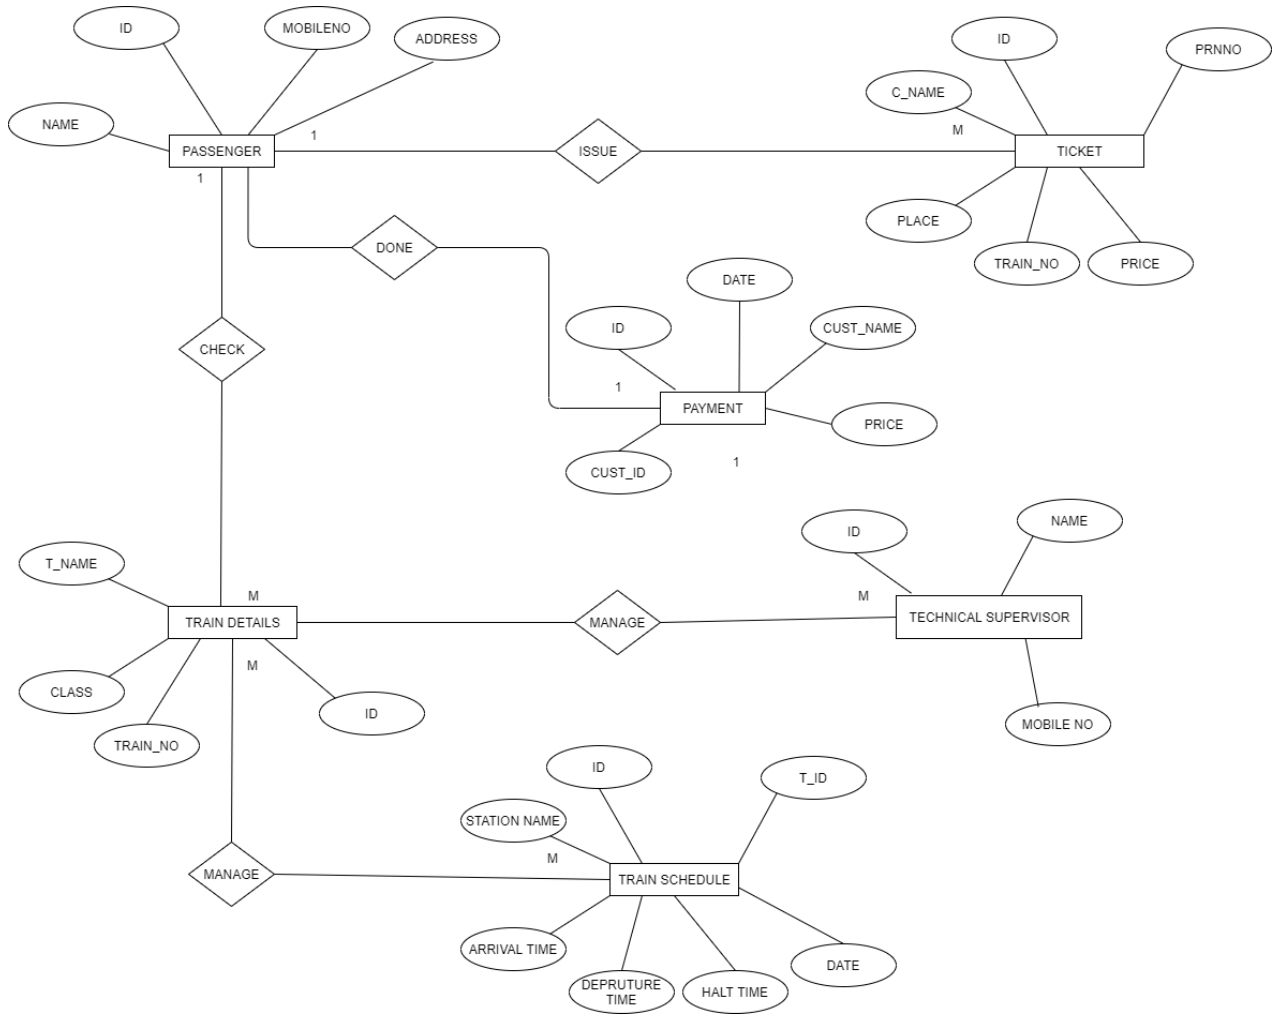

Back-End : MySQL

- Hardware Requirements:-
- “The entire physical equipment’s i.e. Input device, processor, output device and inter connecting equipment of computer is called as hardware”

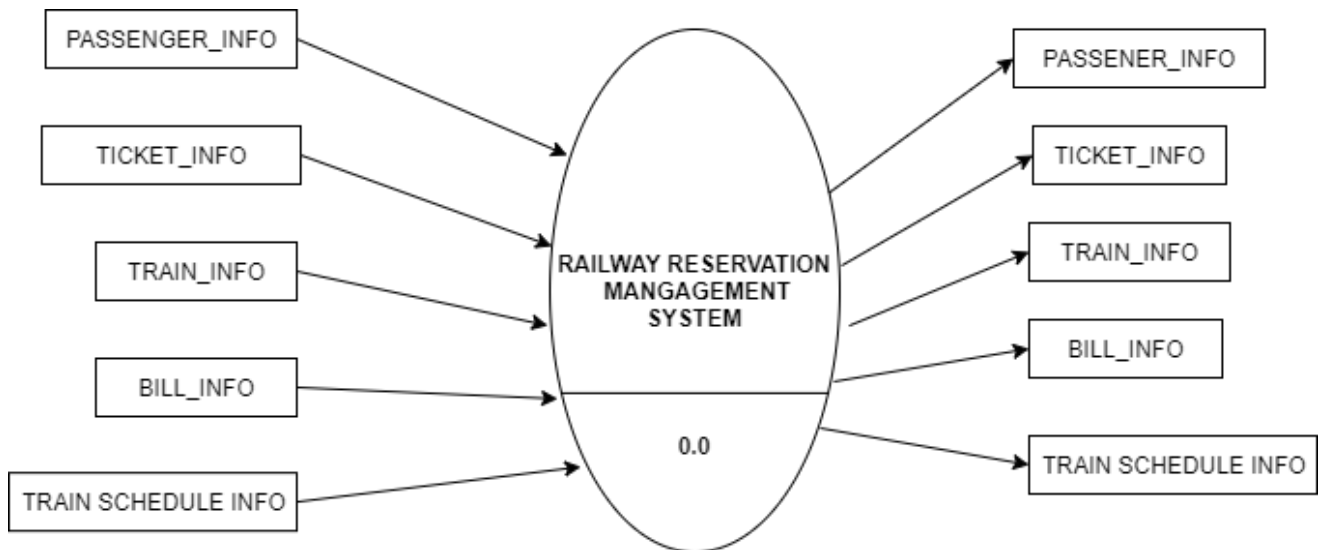

- Processor – i3
- Hard Disk – 5 GB
- 1 GB of RAM
- Keyboard/Mouse
- LCD Display

FORM DESIGNS (WITH INPUT)

Login Form

The screenshot displays the NetBeans IDE environment. On the left, the 'Projects' and 'Navigator' panes show the project structure, including a 'Login.java' file. The main editor window shows the source code for 'MDI.java', which defines a 'Login' form. The form is a simple window with a title bar 'Login', a 'UserName' label, and a text input field containing 'RRS'. A 'Message' dialog box is overlaid on the form, displaying an information icon and the text 'Login success' with an 'OK' button. The 'Output' pane at the bottom shows the execution output, including a warning about a deprecated MySQL driver class.

```
11 import java.awt.Image;
12
13 /**
14  *
15  * @author Manoj
16  */
17 public class MDI extends JFrame {
18
19     /**
20      * Creates new form Login
21      */
22     public MDI() {
23         initComponents();
24     }
25
26     /**
27      * This method is called when the form is initialized.
28      * WARNING: Do NOT modify this code. It is
29      * regenerated by the Form Editor.
30      */
31     private void initComponents() {
32         // TODO add your initialization code here
33     }
34 }
```

Output - RRS (run) x

```
run:
Loading class `com.mysql.jdbc.Driver'. This is deprecated. The new driver class is `com.mysql.cj.jdbc.Driver'. The driver is automatically regist
```

MDI Form

Passenger:

The screenshot displays a software application window titled "Master Transaction" with a "Passenger" sub-window. The background is a blurred image of a railway station at night. The "Passenger" window contains a form with the following fields:

- Id: 4
- Name: utuja Borude
- DOB: 25/07/2000 (DD/MM/YY)
- Gender: Female
- Address: Chanda
- Mobile No: 8050612345

At the bottom of the form are buttons for "Save", "Delete", "Cancel", "Reset", and "Print". To the right, a table lists existing passengers:

ID	Name	DOB	Gender	Address	Mobile No
1	Manoj Kohale	04/07/2000	Male	Sonal	9657666747
2	Sonali Vairagar	22/05/2000	Female	Ganeshwadi	9654612345
3	Shardha Vairagar	20/07/2000	Female	Ganeshwadi	7020612345

An information dialog box titled "Passenger" is overlaid on the form, displaying a blue information icon and the text "Successfully Registered" with an "OK" button.

The Windows taskbar at the bottom shows the system tray with the date and time: "ENG IN 8:45 PM 6/5/2021".

Ticket:

The screenshot shows a Windows desktop environment with a 'Master Transaction' window open. A 'Ticket' dialog box is displayed in the foreground, containing a form and a table. A small 'Ticket' dialog box with an information icon and the text 'Successfully Registered' is also visible, indicating a successful operation.

Form Fields:

- Id: 4
- Cust_id: 4
- PRN NO: 4
- Place: Pathankot to Kangra
- Train No: 104
- Train Name: Maitree Express
- Date: 24/05/2021 (DD/MM/YY)
- Price: 5500

Buttons: Save, Delete, Cancel, Reset, Print

Table:

ID	Cust_ID	PRN	Place	Train No	Train Name	Date	Price
1	1	1	Kalka to Shimla	101	Lifeline Express	19/05/2021	6000
2	2	2	New Jalpaiguri to Darjeeling	102	Mahaparinirvan Express	22/05/2021	6500
3	3	3	Mumbai to Goa	102	Lifeline Express	23/05/2021	4500

Success Message: Ticket Successfully Registered

System Tray: ENG IN 8:49 PM 6/5/2021

Train:

The screenshot shows a Windows application window titled "Master Transaction" with a background image of a train station. A "Train" form is open, displaying the following fields:

- Id: 4
- Passenger_id: 4
- Train Name: Maitree Express
- Train No: 104
- Class: 2nd class

Below the form are buttons for Save, Delete, Cancel, Reset, and Print. A table is visible in the background of the form:

ID	Passenger ID	Train Name	Train No	Class
1	1	Lifeline Express	Lifeline Express	1st class
2	2	Mahaparinivan Expr...	Mahaparinivan Expr...	1st class
3	3	Lifeline Express	Lifeline Express	Genralr

A small "Train" message box is overlaid on the form, displaying an information icon and the text "Successfully Registered" with an "OK" button.

The Windows taskbar at the bottom shows the system tray with the date and time: 8:50 PM, 6/5/2021, and language: ENG IN.

Train Schedule:

The screenshot shows a Windows application window titled "Train_schedule" with a background image of a train station. The window contains a form on the left and a data table on the right. A confirmation dialog box is overlaid on the table.

Form Fields:

- Id: 4
- T_Id: 4
- Station Name: Mumbai
- Arrival Time: 16:30
- Departure Time: 16:50
- Halt Time: 20:00
- Date: 24/05/2021

Data Table:

ID	T_ID	Station Name	Arrival Time	Departure Time	Halt Time	Date
1	1	mumbai	22:10	22:20	10:00	22/05/2021
2	2	Dadar	19:10	19:30	20:00	22/05/2021
3	3	Goa	18:30	18:45	15:00	23/05/2021

Confirmation Dialog:

Train Schedule
Successfully Registered
OK

Buttons: Save, Delete, Cancel, Reset, Print

System Tray: ENG IN, 8:54 PM, 6/5/2021

Bill:

The screenshot shows a Windows desktop environment with a taskbar at the bottom. The taskbar includes icons for Windows, search, task view, File Explorer, Chrome, and other applications. The system tray on the right shows network, volume, and language settings (ENG IN), along with the time 8:57 PM and date 6/5/2021.

The main application window is titled "Master Transaction" and contains a "Bill" form. The form has the following fields and values:

- Id: 4
- Passenger_id: 4
- Name: Rutuja Borude
- Price: 5500

Below the form are buttons for "Save", "Delete", "Cancel", "Reset", and "Print".

To the right of the form is a table with the following data:

ID	Passenger ID	Name	Price
1	1	Manoj Kohale	6000
2	2	Sonali Vairagar	5500
3	3	Shardha Vairagar	4500

A small dialog box titled "Bill" is open in the foreground, displaying a blue information icon and the text "Successfully Registered" with an "OK" button.

Report:

The screenshot shows the Adobe Acrobat Reader DC interface. The main content area displays a table titled "Passenger Report". The table has 6 columns: ID, Name, DOB, Gender, Address, and Mobile No. There are 4 rows of data. The right sidebar shows various PDF tools like Export PDF, Edit PDF, etc. The Windows taskbar is visible at the bottom.

ID	Name	DOB	Gender	Address	Mobile No
1	Manoj Kohale	04/07/2000	Male	Sonai	9657666747
2	Sonali Vairagar	22/05/2000	Female	Ganeshwadi	9654612345
3	Shardha Vairagar	20/07/2000	Female	Ganeshwadi	7020612345
4	Rutuja Borude	25/07/2000	Female	Chanda	8050612345

Ticket Report

ID	Cust_ID	PRN	Place	Train No	Train Name	Date
1	1	1	Kalka to Shimla	101	Lifeline Express	19/05/2021
2	2	2	New Jalpaiguri to Darjeeling	102	Mahaparinirvan Express	22/05/2021
3	3	3	Mumbai to Goa	102	Lifeline Express	23/05/2021
4	4	4	Pathankot to Kangra	104	Maitree Express	24/05/2021

ADVANTAGES AND LIMITATIONS

Advantages:-

1. Easy to keep record.
2. Easy to add new Passengers Details.
3. Easy to add ticket details.
4. Easy to generate Bill.
5. Easy to maintain Customer details.

Disadvantages:-

1. Less security (Login Information not encrypted).
2. Not available for online users.
3. Single user Interface.

FUTURE ENHANCEMENT

1. Multiuser interface implementation.
2. More security to data.
3. Online availability.
