India is fast emerging as a global power, but for half of its population, the women across the country, struggle to live life with dignity. Women, irrespective of their class, caste and educational status, are not safe in the modern society. Women have been the victims of exploitations since long time in different fields in their life both physically, socially, mentally and economically. Incidences like sexual abuse by near relatives, co-habitation with near or dear friends. Dr. Choudhare also introduced the theme of Commemoration of the International Day for the Elimination of Violence against Women 2022 as: ***“UNITE! Activism to End Violence against Women & Girls”***.

Dr. Zine said while expressing violence, against women it has been rapidly increasing and a legitimate human right issue in connection to their socio-economic stability has got impetus. In today's society women have to work twice as hard as compared to men.
