**Value Added Course: Report on
Certificate Course in Web Designing**

Academic Year: 2024-25

Term-II

A) Introduction:

The **Value-Added Certificate Course in Web Designing** was conducted by Department of B.Sc.(Computer Science) Arts, Commerce And Science College, Sonai from **February 25, 2025, to March 24, 2025**. The course aimed to provide participants with in-depth knowledge and hands-on experience in web design, equipping them with essential skills in HTML, CSS, JavaScript, and responsive web design techniques. This short-term course was designed to enhance participants' understanding of modern web development tools and practices, making them industry-ready.

2. Course Objectives

The objectives of this course were as follows:

- To provide a strong foundation in web design principles and best practices.
- To teach participants how to create responsive, user-friendly websites.
- To familiarize participants with the use of web development tools such as HTML, CSS, and JavaScript.
- To offer practical, hands-on experience in web design, culminating in a final project.
- To prepare participants for entry-level positions or internships in the web design field

3. Course Duration and Structure

The course was conducted over **5 weeks**, from **February 25, 2025, to March 28, 2025**. The sessions were held **three times a week** (on [insert days, e.g., Mondays, Wednesdays, and Fridays]) for a total of [insert duration of each session, e.g., 2 hours per session].

The course structure was as follows:

- **Week 1 (Feb 25 - Mar 1): Introduction to Web Design**
 - Overview of web design principles and technologies.
 - Basics of HTML: Structure, tags, and attributes.
 - Introduction to CSS: Styling, typography, and color theory.
- **Week 2 (Mar 4 - 8): Advanced HTML and CSS**
 - Forms, tables, and media elements in HTML.
 - Advanced CSS techniques: Layouts, Flexbox, and Grid.
 - Introduction to responsive design principles.
- **Week 3 (Mar 11 - 15): Responsive Web Design and JavaScript Basics**
 - Media queries and building responsive layouts.
 - Introduction to JavaScript for adding interactivity.

- DOM-manipulation and event handling in JavaScript.
- **Week 4 (Mar 18 - 22): Web Design Tools and Final Project Preparation**
 - Introduction to popular design tools (Adobe XD, Figma, etc.).
 - Designing wireframes and prototypes.
 - Start of the final project: Creating a responsive website.
- **Week 5 (Mar 25 - 24): Project Completion and Final Review**
 - Completion of final project (responsive website).
 - Peer review and feedback.
 - Certificate distribution and course conclusion.

4. Teaching Methodology

The course used a combination of the following teaching methods:

- **Interactive Lectures:** Detailed presentations on web design principles, coding techniques, and design tools.
- **Hands-on Sessions:** Live coding sessions where participants worked on practical exercises and projects.
- **Assignments:** Weekly assignments to reinforce the concepts learned in class.
- **Final Project:** Each participant worked on building a fully responsive website, applying the skills they learned.
- **Peer Review:** Participants reviewed each other's final projects, providing constructive feedback.

5. Key Topics Covered

- **HTML & CSS:** Structure of a webpage, common HTML elements, CSS styling, positioning, Flex box, CSS Grid, and typography.
- **Responsive Web Design:** Techniques to design websites that adjust to different screen sizes using media queries.
- **JavaScript:** Basics of JavaScript, DOM manipulation, and event handling.
- **Web Design Tools:** Introduction to tools like Adobe XD and Figma for wireframing and UI/UX design.
- **Final Project:** Creation of a fully functional, responsive website.

6. Outcome and Evaluation

By the end of the course, participants successfully:

- Developed the skills to build and design websites using HTML, CSS, and JavaScript.
- Gained proficiency in designing responsive websites that work across devices and screen sizes.
- Created a portfolio piece (final project) that demonstrated their web design skills.

The final projects were evaluated based on the following criteria:

- **Creativity:** Innovative design and use of web design principles.
- **Responsiveness:** Ability to adapt to different screen sizes.
- **Functionality:** Proper implementation of HTML, CSS, and JavaScript.
- **User Experience:** Clear, user-friendly navigation and design.

7. Feedback from Participants

The feedback collected from participants was largely positive. Key highlights include:

- **Strengths:**
 - The comprehensive and structured approach to web design.
 - The interactive nature of the course, combining theory with hands-on practice.
 - The final project was highly appreciated for allowing participants to showcase their skills.
- **Suggestions for Improvement:**
 - A few participants suggested including a deeper dive into JavaScript frameworks like React or Vue.
 - Some participants felt additional time was needed for the final project.

8. Conclusion

The **Value-Added Certificate Course in Web Designing** successfully met its objectives, providing participants with practical skills and experience in web design and development. By the end of the course, participants had developed a solid understanding of web design principles and technologies, and most had a finished project that they could use in their portfolios.

Certificate Course in Web Designing

Assessment Procedures Academic Year 2024-25

I) Question Paper Pattern:-

Q1. Attempt All Multiple Choice Questions: [Please tick mark the correct answer] (10*1=10)

Q2. Attempt any Five : (5*2=10) (Short answer 2 Marks)

Q3. Attempt any one: (5*1=5) (Long answer 5 marks)

II) Practical (Project) - 25 Marks

III) Standard of Passing: If any student fails to secure the minimum passing grade of D in paper, such student may have to repeat such paper and has to pass the paper compulsorily.

IV) External students:- NA

V) There will be annual written examination of 25 marks 1 hr duration and 25 Marks (Practical) for every course at the end of each year.

In order to pass examination a candidate has to obtain 40% marks out of 50 Marks in each (Theory & Practical) course.

➤ The Award of Class:

The class shall be awarded to the student on the basis of total marks obtained by him in each course. The award of class is as follows:

Grade	Marks	Remark
O	46-50	Outstanding
A+	41-45	Excellent
A	36-40	Very Good
B+	31-35	Good
B	29-30	Above Average
C	26-28	Average
D	17-25	Pass
F	0-16	Fail
